Professional Summary

Highly experienced, empathetic, and dedicated IT professional with over 20 years of experience supporting enterprise, educational, corporate, and public sector ICT environments. Proven expertise across mobile device management (iPad fleet management via Jamf/Apple School Manager, laptop deployments/returns), network system administration, asset tracking (SETT tracker/ITSM), software licensing compliance, and developing user-training procedures. Passionate about leveraging assistive technology to enhance curriculum access, student participation, and educational outcomes for students with disabilities across Western Australia.

Core Competencies & Assistive Technology Capabilities

- **Device & MDM Administration:** iPad fleet management, Microsoft Intune, Windows/macOS laptop provisioning, deployment, and returns.
- **Network Systems & Security:** TCP/IP, DNS, DHCP, LAN/Wi-Fi, VPN connectivity, Active Directory, Entra ID (Azure AD), data security, and Departmental compliance standards.
- **Asset & Licence Governance:** Assistive technology asset lifecycle tracking, stocktaking, accessioning, disposals, software subscriptions, and budget forecasting.
- **User Training & Capacity Building:** Practical experience developing step-by-step user-training procedures, standard work instructions, one-on-one coaching, and remote technical support.
- **Procurement & Administration:** Supplier liaison, quote evaluation, purchase card coding, invoice monitoring, and multi-inbox enquiry triaging.
- **Stakeholder Engagement & Values:** Clear, empathetic communication, de-escalating technical barriers, and collaborating with consulting teachers, schools, Department ICT, and suppliers in alignment with Department of Education values.

Professional Experience

End User Computing Team Lead - WA/SA/TAS (ICT Systems & Service Delivery)

Datacom – Australian Taxation Office (Commonwealth Public Sector) | 2024 – August 2026

- Oversee day-to-day ICT support, endpoint administration, and device deployment across multi-regional locations in a high-compliance environment.

- Coordinate device provisioning, software installations, and returns across mobile devices, laptops, and peripheral hardware using modern MDM platforms (Intune/Entra ID).
- Monitor support queues and multi-channel inboxes, triaging incoming requests, resolving complex technical barriers, and providing remote technical assistance.
- Develop structured technical training guides, onboarding procedures, and Standard Operating Procedures (SOPs) that uplift staff capability and streamline issue resolution.
- Maintain comprehensive asset tracking records and audit trails, ensuring complete hardware accountability and compliance.

SD/EUC Team Lead (Service Operations & Endpoint Support)

Datacom - Landgate | 2022 – 2024

- Administered multi-platform endpoint fleets across diverse client environments, managing operating system updates, application licensing, and hardware refreshes.
- Monitored support inboxes and ticketing workflows, ensuring prompt response times, timely escalations, and high customer satisfaction.
- Collaborated with external vendors, suppliers, and specialized engineering teams to resolve technical faults and eliminate network access barriers.
- Created self-service knowledge base articles and conducted user-training sessions to empower non-technical users.

Desktop Services Team Leader (Site ICT Operations & Hardware Lifecycle)

Ausgroup / ALTRAD | 2018 – 2023

- Managed hardware asset lifecycles across multiple operational sites, including equipment procurement, cataloguing, stocktaking, and scheduled hardware replacements.
- Provided hands-on technical support for desktop/laptop fleets, peripheral devices, AV systems, and local network connectivity (Wi-Fi, LAN, VPN).
- Liaised with equipment suppliers, evaluated product quotes, monitored invoices, and assisted with budget tracking and purchasing administration.
- Awarded the **Customer Service Excellence Award** for delivering responsive, respectful, and user-focused technical support.

Senior Service Desk Analyst & Trainer

Datacom | 2016 – 2018

- Delivered Level 2 technical and network troubleshooting across client platforms; developed staff onboarding training packages and technical user guides.

IT Support Analyst & Knowledge Coordinator

Lion Corporation | 2011 – 2015

- Provided Level 2 enterprise support for 8,000+ users; owned Knowledge-Centred Service (KCS) documentation repositories and managed software change workflows.

IT Systems Administrator

PKF Chartered Accountants | 2001 – 2010

- Administered internal servers, Active Directory user permissions, network infrastructure, hardware procurement, and user support.

Education & Formal Qualifications

- **Bachelor of Commerce (Information Systems & International Business)** – Curtin University
- **Graduate Diploma in Logistics & IT Management** – Curtin University
- **Data Science Studies** – Data Science Infinity (SQL, Python, Data Quality Profiling)

Certifications & Licences

- **ITIL Foundation Certification**
- **Knowledge-Centred Service (KCS) Certification**
- **System Center Configuration Manager (SCCM/MECM) Certification**
- **WA Driver's License:** Current, clean record
- **Clearances & Eligibility:** Australian Citizen; prepared to obtain Working with Children Check (WWCC) and consent to Department of Education Criminal Screening (SCN).
